

# AXEL FRANKLIN

## Ethical Hacker

I'm an offensive security student, today I'm looking for an internship in the area, I develop backdoors and activities with red team tools, I've been working as a freelancer for 1 year. My specialties include: **Linux, Python, Shell, Metasploit, Nmap, Netcat, Burp Suite, Oracle Virtualbox, Kali Linux, Pentest WEB, experiência com CTF 's na plataforma Try HackMe e Hack The Box.**

## EXPERIENCE:

**Freelancer - Ceará/Brazil, Remote**  
*October 2022 - Currently*

**Project:** Development of a Web Application Firewall:

The objective is to simulate a firewall that would be accessed on the web, creating traffic rules using IDS and IPS, demonstrating the system logs and all types of packets that are sent and received on the local network, in addition to being recorded and encoded with encryption for be forwarded to the fictitious company's development team and perform intrusion tests on applications to analyze vulnerabilities.

**Technologies:** *Virtualbox, PFSense, Graylog, PHP, Apache2, Nmap, Burp Suite, Proxychains, Metasploit, Netcat, Dirb, DVWA.*

## TECHNOLOGIES

Linux  
Shell Script  
SSH  
Oracle VirtualBox  
Kali Linux  
PHP/HTML  
Javascript  
SQLite  
Git /Github  
Burp Suite  
Metasploit/MSF Venom  
Python 3  
Go buster

## CERTIFICATIONS/EDUCATION

**Google/Coursera**

-Google Cybersecurity Professional  
Consisting of 163 hours.  
-Google IT Support Professional  
Consisting of 133 hours.

**IBM/Coursera**

-Introduction to Cybersecurity Tools & Cyber Attacks  
Consisting of 16 hours.  
-Cybersecurity Roles, Processes & Operating System Security  
Consisting of 11 hours.

**Alura, DevOPS School**

-Cybersecurity.  
Consisting of 54 hours.  
-Offensive Security.  
Consisting of 31 hours.  
-Defensive Security.  
Consisting of 28 hours.  
-Computer network.  
Consisting 41 Hours.

**Udemy**

-Fundamentals of Ethical Hacking.  
Consisting of 25 hours.

**Cepeg**

-Information Technology  
1 again.

**Complete high school**

-Castro Education Institute
